

LIGHT THE FUTURE

17/06/2023

On 17th June 2023, AIESEC in UPM, organized the LIGHT the Future with AIESEC program at the School of Business and Economics, UPM. This program aimed to empower youth to gain insightful knowledge about career development and acquire essential skills to build their competency before stepping into the workforce. Through purposeful conversations and engagement with corporate leaders, the event aims to spark interest in personal development. A total of 28 participants from UPM and University College Sedaya International (UCSI) took part in this program. Through this initiative, students were able to develop their skills, particularly entrepreneurial skills that align with industry demands, through competitions held during the event. Various activities were conducted, including keynote sessions, leadership engagement activities, and panel discussions, to achieve the program's objectives and foster leadership qualities among students.
