

# HASHTECH WITH AIESEC

17/12/2023, 12/01/2024

On 17th December 2023 and 12th January 2024, AIESEC in UPM organized the HashTech with AIESEC program, attended by 63 students from UPM and Asia Pacific University (APU). The program aimed to address youth unemployment caused by skill mismatches. On 17th December, participants were introduced to AIESEC and took part in an App Development Workshop, developing Flutter apps related to Sustainable Development Goals (SDGs) with guidance from iTrain Sdn. Bhd. A discussion session with industry experts covered digitalization in careers, digital skills, leadership, and career preparation tips, followed by reflections and a sharing session on AIESEC in UPM programs. On 12th January, participants visited Sunway Group, learning about industry trends, workplace technology, and job opportunities, while also networking with employees. Through this program, participants gained practical exposure to digitalization and valuable insights from industry leaders, helping them develop essential digital skills and build their competency before stepping into the workforce.
