

YOUTHSPEAK FORUM (DECEMBER)

19/12/2024, 29/12/2024

Youth Speak Forum powered by AIESEC is an Engagement with AIESEC product run by youth for youth. It is a event that empowers young people to gain understanding on how they can contribute to the Sustainable Development Goals (SDGs) through short and powerful talks that sparks interest in personal development through skills-building workshops. Encourage youth to harness the power of technological advancements in business and tech to foster inclusive economic growth, create pathways for employment, and promote sustainable development. Activating youth leadership and empowering them to channel their creativity, entrepreneurship, and digital expertise, can address global challenges, drive innovation, and build resilient, future-ready economies. The youth today are not just participants in this digital era but are the architects of a more inclusive and prosperous tomorrow.

YOUTHSPEAK FORUM (DECEMBER)
