

# EQUIFY 3.0

08/05/2024 - 14/09/2024

From the 8th of May to the 14th of September 2024, AIESEC in UPM organized a six-week Global Volunteer program, where international volunteers from overseas joined our initiative focused on SDG 10: Reducing Inequalities. This program was conducted in collaboration with the Great Heart Charity Association (GHCA). The activities were designed to raise awareness about SDG 10 and promote cross-cultural exchanges. The program also provided youth with exposure to the cultures of Kuwait, Indonesia, and Vietnam.

Some of the key highlights was the successful organization of a Scam Awareness Workshop with PPR HICOM (Program Perumahan Rakyat), which is a housing project for the underprivileged B40 community. During this workshop, we engaged over 30 participants, helping to increase their digital literacy by inviting an IT expert from the Asia Pacific University (APU).

Additionally, school workshops were held to educate and provide opportunities for the underprivileged community. Various events were organized to engage different communities, fostering a better understanding of SDG 10 through practical, hands-on workshops.
