

# EQUIFY 2.0

23/09/2024 - 04/11/2024

From the 23rd of September to the 4th of November 2024, AIESEC in UPM organized a six-week Global Volunteer program, where international volunteers joined our initiative focused on SDG 10: Reducing Inequalities. This program was conducted in collaboration with the Great Heart Charity Association (GHCA). The goal was to raise awareness about SDG 10 and promote cross-cultural exchanges. The program also offered participants a unique opportunity to experience Japanese culture.

Some of the highlights of the program was the successful organization of the Global Village event, which engaged over 50 UPM students. This large-scale event featured performances by international volunteers, who shared their experiences in Malaysia and discussed global issues related to Japan. The event also fostered cross-cultural understanding. Participants had the chance to sample a variety of delicious foods from different countries and learn about the history and significance of these dishes.

To achieve the objectives of the program, several workshops focused on SDG 10 were conducted. These included workshops in schools, sessions with underprivileged communities, and outreach efforts in the Orang Asli villages. These activities provided participants with the opportunity to experience and engage with the challenges related to SDG 10, fostering a deeper understanding of the issues.
